

**Telecommunications 3310
Fall 2008**

Honesty & Plagiarism Policy

In signing this document, I acknowledge that I have read and fully understand Dr. O'Donnell's and the University of Georgia's Honesty and Plagiarism Policy, and I understand that these policies will be fully enforced in Telecommunications 3310, Introduction to Telecommunications Programming and Management.

I further acknowledge that I understand that if I have any questions about whether the work I am turning in violates UGA's Honest Policy as outlined in the Student Code of Conduct and restated in the syllabus for this course, I am to bring my work to Dr. O'Donnell *at least two class periods in advance of the due date* and discuss the work with her to ensure that it is not in violation of the University of Georgia's policy on Honesty and Plagiarism.

Finally, I understand that should it be determined through a process overseen by the University's Office of Academic Affairs that I have violated the Honesty and Plagiarism Policy as established in the University of Georgia Student Code of Conduct and the syllabus for this course, the minimum penalty that will be assessed will be an "F" in this course. Failure of the entire course will be the minimum assessed penalty regardless of how small a percentage of the final course grade the exam, quiz or assignment in question represents.
